A Volunteer Corps.

Pursuant to announcement, a meeting
for the purpose of forming a volunteer
infantry corps took place last Friday evening
at the Castle Mountain Hotel. The number
of thirty attended. Mr. J. Douglas
White called the meeting to order. Gen-
eral George B. Elliott secretary. General
Strang addressed the meeting. He spoke
of the present emergency and of the neces-
sity of forming a volunteer corps. He was
in favor of mounted infantry, with cavalry
equipment. He referred to our close con-
tact with British Columbia, and the
Pacific coast, and the probability of a Rus-
sian war, and he thought that the right
kind of men were here to form the corps.
He referred to his own services in the Rus-
sian army for twenty-five years, and said he
was still ready with his services when they
were required.

Mr. T. H. Dunne spoke of the advantage
of mounted infantry with cavalry equip-
ment. He felt sure that it would be a
valuable addition to the military require-
ments of the country. Mr. White moved
that the meeting adjourn to the 1st inst.
of the same opinion. He thought that
there would be no difficulty in forming a
squadron.

Mr. Dunne thought something after the
manner of a guerrilla corps would be best.
The uniform would be light and not an
embarrassment. He was in favor of the
Norfolk pocket. The chairman suggested
that it would be well to have a man as a
motion as to the advisability of forming
an infantry corps.

Moved by J. Douglas White seconded by
T. H. Dunne that it is advisable that a
volunteer infantry corps be organized in
this district. Carried unanimously.

The chairman said he would communi-
cate with the Militia Department and in
his letter he would recommend the
department as to the necessity of the corps.
He would also point out the desirability of
having the cavalry equipment, the Norfolk
pocket, and the Martin-Henry rifle.

Mr. Shotton said he thought it was more
necessary to have an infantry corps, as there
was a good many men in the town who
did not have horses.

Mr. Mortimer thought that they might
raise a company of foot as well as of
mounted infantry, but he preferred the
former.

The meeting divided on the motion, and
it was decided to form a mounted corps,
but it was also arranged that in the mean-
time those who wished to form a company
of ordinary infantry could do so, and to
circulate two lists.

Moved by Mr. Mortimer, seconded by
Mr. Shotton, that the names of those wishing
to form a mounted infantry corps be for-
warded in a list with Gen. Strang's com-
mandant. Carried.

Moved by Mr. White, seconded by Mr.
Mortimer, that a committee of three be ap-
pointed for the term of one month, to
obtain the necessary signatures.

Carried.

The following committee was appointed:
For the town—Messrs. Dunne, White, and
Mortimer.

The committee was empowered to add
to the list of names for the committee.
The name of the secretary was added to
the committee.

Votes of thanks were passed to the chair-
man and the secretary for their services,
and the meeting adjourned at the fall of
the gavel.

The Police in the Mountains.

A gentleman, who has just returned
from a trip to the mountains, speaks high-
ly of the effective work accomplished by
the police under command of Captain
Slesie. The force numbers only 25 men,
including 3 officers, and they have accom-
plished an inordinate number for the duties
required. These men are scattered all
the way from Lagopus to the Second
Crossing, a distance of some 150 miles.
At some points, such as Lagopus, the
station, and the last Crossing only one man
is stationed where there ought to be two
or three. The best quarters are at
Lagopus, where the Inspector, Ser-
geant Fyfe and the Sergeant are stationed.

Besides guarding the gold and taking
charge of the C.P.R. property, they have
to look after the hard work of a floating
population of 800 people, not altogether an
easy or pleasant duty. The up-country
population is practically all of the town
are to be credited, and Sergeant Fyfe and
his men deserve credit for the way in
which order is maintained in such a mixed
community. The up-country population
contains 15 prisoners last year, awaiting
transfer to the British Columbia authori-
ties, and what with the scattered station
duty, town patrol, and escort duty for the
C.P.R. paymaster, the force is worked to
the utmost capacity.

The Inspector's duties are multifarious.
Besides having to look after the entire
mountain force, he holds daily court at
the creek, and at any hour of the day or night
is called out to settle disputes between
workmen, and their losses, which, owing
to the absence of the Magistrate and Sec-
retary, are very frequent and violent. The whisky
traders are also very numerous and un-
pleasant, and it would require two or three
inspectors to investigate their quarrels.

It is satisfactory to be able to state that
the efficient manner in which the men
perform their arduous duties, commands
the respect of the entire community. The
men are probably the best of their kind
as could be found in the whole force, and
it is gratifying to know that while per-
forming their duty, the men are also
with whom they have to do are the first to
acknowledge it.

PROUD OF THEIR OFFICE.
In reference to the formation of a volun-
teer corps for the town, the Mayor tele-
graphed to Ottawa for permission for the
formation of such a corps, and that it
should be supplied with arms by the gov-
ernment. He also telegraphed to Lt. Gov-
ernor Denison to use his influence in the
direction. An answer was received from
the Lt. Governor, expressing his pleasure
at the scheme, and proposing to do what
he could. In the telegram occurred the
words, "I am proud of your spirit." Mr.
Dewdney thought the present time "farc-
ing for the formation of such a company."

A Celebrated Warrior.
Chief Johnson of the Nez Percés who
brought the United States troops into
Washington Territory, after 1878, was
driven across the Missouri at Crow Lake
by Gen. Gibbon is in town.

Notice

We are requested by the Mayor to give
notice, that there will be a meeting of the
citizens in Masonic Hall, tomorrow after-
noon at 2 o'clock, to obtain a general
expression of opinion on the precautionary
steps it may be deemed advisable to take,
for mutual protection, throughout the
District, at the present juncture of affairs.
Ranchers are particularly requested to
attend.

THE NINETEEN HUNDRED AND THE FIELD
The Nineteen Hundred and the Field
were suddenly ordered last night to be
ready to go out tonight. They will leave
for Qu'Appelle at 9 o'clock.

GENERAL MIDDLETON
It is reported to be on his way to take charge
of the expedition. It was reported from
Ottawa yesterday that the government had
appointed Lt. Governor Dewdney, Indi-
an Commissioner, to confer with the In-
dians regarding their grievances.

LOUISIANA, March 22. Heavy fighting
has occurred near Sinking between
General Graham's forces and the Arabs
under Osman Pasha. A battle took place
on Friday last. The English general
attempted to dislodge the rebels from the
hills near Hansen, which was necessary
in order to clear the line for the railway
to Herby. They were successful, but
only after a heavy loss. The British at one
time being driven back.

Neither Nine Returns.
Special to The Herald.

Qu'Appelle, March 22. A messenger
has just arrived at Battleford, who left
Calton on Friday. He reports that the
rumor that Calton had been taken is false.
Major Center holds the place, with 100
police and 75 volunteers. The place is
strongly fortified and there are plenty of
arms and ammunition.

STANLEY CATTED
Stanley, a small trading post 12 miles east
of Calton and 7 miles from Battleford, has
been captured and gutted. The rebels
have made the place their headquarters,
and the half-breeds and Indians are camped
in the stores and houses. As far as is
known no bloodshed has occurred.

THE SINKING
The Sink and Cross, to the number of
400, are on the way back. The hands are
well armed, and there is great excitement
among the settlers.

EXCITEMENT TO DEATH
A man named Nolan, an ex-M.P. of
Winnipeg, was seized by Riel on Wednes-
day and sentenced to be shot. His crime
was revealing the plans of the insurgents
to Col. Crozier. On swearing allegiance
to Riel he was pardoned.

NOTE.—This evidently refers to Chas.
Nolan, who was a member of the provi-
sional government under Riel in '69 and
'70. He served with the rebels at the
time of the Red River rebellion, being lo-
cated at Point Du Chene. Subsequently
he was elected to the Manitoba legislature
as member for Provencher.

COLONEL IRVINE'S COMMAND.
Col. Irvine left Humboldt with his com-
mand at 6 p.m. yesterday, camping that
night six miles north of the settlement.
The telegraph wires are working between
Qu'Appelle and Edmonton, but those to
Prince Albert have been cut and there is
no communication with that point.

STATE COUNCIL.
The rebels are reported to be in
possession of the mail stations Hoods and
Stuart. They have seized one mail and
eight stage horses and have taken two
mail delivery prisoners.

NOTE.—This is probably the mail stage
of Lesson and Scott referred to in another
column.

EXCITEMENT IN WINNIPEG
Yesterday, March 25.—The half-breed
rising near Calton created a great ex-
citement here and in the east. The rebels
are said to be in strong force, and the
Indians are said to be joining them. A
dispatch from Battleford last night said
that Colonel Irvine was expected to meet
Colonel Crozier at the South Saskatchewan
Crossing to-day. The actual situa-
tion is not known on account of the
wires being cut near Duck Lake.

LOCAL NEWS.

Sailing.

Mr. J. Cunningham has just received a large consignment of Indian saddles, and the best lot of saddlebags ever brought in to the territory. The stock is well worth inspection.

Opinion of the American.

Opinion of the American.

Cattle at Calgary.

A dispatch from Brandon states that Anderson and Collins, butchers, will presently establish a cattle yard and will buy Brandon cattle for shipment west. Messrs Anderson and Collins seem to be men of nerve.

I. G. Baker & Co.

It was rumored some time ago that I. G. & Co. were going to sell their business in Calgary. We are in a position to state that this is not the case, and that their new stock for the spring trade will be brought in presently.

Seed for Indians.

The Hudson Bay store at this point has been receiving 12,000 lbs. of seed corn from the west for the Indians to use on their land. As long as the Indians don't use it for ammunition to injure the police, it will serve as a pleasing instance of their progress in agricultural pursuits.

The Disturbance Explained.

Any explanation of the halfhearted rioting has been offered by a gentleman recently returned from Winnipeg. He says that he saw at the Winnipeg station a man addressed to the Hon. Lawrence Clarke (the Canadian government would, I think, North and the Hon. Lawrence Clarke this country might get along).

Most Head Ranch.

An accident happened at the Most Head Ranch last week by which a valuable stallion came to grief. The horse was being led to water, when he slipped and broke his leg. The stallion was of the Irish Hunter breed and worth \$1000. An effort is being made to save the animal.

C.P.S. square meals all round at the American House.

C.P.S. square meals all round at the American House.

Queen's Birthday.

Attention is called to a meeting which will be held in a private room at Clark and Henderson on Saturday evening next at 8 o'clock, to take steps to celebrate the 23rd of May in a proper style. This meeting has already held its initial meeting on the subject and it will not do Calgary to be behind hand. All who are interested in the matter are invited to attend.

A Broken Jaw.

Ben Kennedy, of Kennedy & Linn, was driving his team down the big hill at Sheep Creek. The wagon broke through the ring of the neck yoke, the wagon running down on to the horses and causing a runaway. Kennedy was pitched out and the wagon going over him broke his jaw in three places. He is at the Grand Central nursing himself.

Open for Entry.

The Dominion Lands Agent at Calgary has been instructed to throw open the following additional townships for homestead and preemption entry:

The New City in the Mountains. The Future of the Second Crossing.

A reporter of the Globe interviewed Mr. Farrell in reference to the report as to a large quantity of goods being bought at Portland for export to the United States.

"You have had an old acquaintance with that locality, Mr. Farrell?"

"I wintered there a dozen years ago, and then converted the idea that there must be a city there if the railway came that way."

"It stretches for 25 miles along the east bank of the Columbia opposite Eagle Pass, and is a shore of choice. It is a great part of the site, practically, already cleared, and the rest is easily cleared."

"The freight tends to give good landing, and the deep water is on that side. The whole townsite contains 175 acres, about the size of Victoria. It is the most fertile place for grain and stock raising in the territory."

"The upper and lower ends are gently sloping, and the middle is a level. The townsite is about 40 feet, facing a beautiful lowland with a fertile soil."

"The plan is to lay it off as a town site."

"I have already partly carried it out for this purpose, and now am waiting the result of negotiations with the railway company as to their requirements."

"The station, probably, will be there; the line runs through the land and crosses the river by a large bridge. I propose to lay off the upper end for saw mills and lumber yards, which will occupy about a mile of the bank, and for workmen's dwellings. The central portion will contain the millinery stores and hotels, churches, schools and residences. The lower portion will be a compact town with suburban lots for gardening, etc."

"The soil is good, and the water supply from running streams within the townsite is delicious, and enough for 100,000 people."

"What is the basis of the proposed city?"

"That is why the railway depot and sawmills will bring a population of several thousands; the trade with miners will be larger; the silver mines than those at Kamloops lake exist in the neighborhood."

"Canadian and American trade naturally will centre there; manufacturers of all kinds will spring up quickly; the government will build headquarters for that district will be there. The townsite will contain about 175 acres, about the size of Victoria."

"Is it true that Portland goods will be sent there?"

"Yes, I believe about 10,000 tons will be delivered there during this year. A large steamer is being prepared for her first trip out in April. Warehouses are being built. There will be a large permanent trade between the city and Eastern Canada and the United States. The navigation into the States is free rate, half off the ship, and the rest about the same as the Fraser up to Yale."

"Is there agricultural land in the neighborhood?"

"The Columbia flats, 20 miles down to Arrow lake, are fertile but require clearing. The townsite is worth \$50 an acre for purely agricultural purposes."

"Should not Victoria have some of this trade, present and prospective?"

"That is a question for which I am not qualified to answer."

"May I ask you to bring the place successfully?"

"I am not boasting it at all, and don't intend to. The only reason the place needs no long-term loans and no other year you will see plenty of them, and of the city. Let's there will be the last in the west of the continent."

"What is the extent of your land claim?"

"Twenty miles in length on each side of the Columbia and four miles back."

"Is that area timbered?"

"Yes, and I have not yet examined the whole of it."
